

São Tomé and Lisbon, Portuguese-speaking capitals have again direct connections

STP AIRWAYS with euroAtlantic aircraft resumes regular direct flights

The national flag company **STP AIRWAYS (STP)** of São Tomé and Príncipe will resume on **July 3, 2020** regular direct flights between São Tomé and Príncipe and Portugal, on flights operated with **euroAtlantic airways** aircraft under **code-share** with one (1) weekly flight, on Fridays. The Portuguese company is a shareholder and manager of the São Toméan national company.

**STPAIRWAYS 8F507 code-share flight with euroAtlantic - Lisbon (LIS) São Tomé (TMS)
06: 00h - 10: 50h***

**STPAIRWAYS 8F508 code-share flight with euroAtlantic - São Tomé (TMS) Lisbon (LIS)
13: 25h - 20: 35h***

***local time**

The positioning of **STP AIRWAYS** as a heart brand for the São Toméan consumer, is rewarded to customers with the unique conditions that **EAA's Boeing B767-300ER** allows. Like regular **euroAtlantic** flights to Guinea-Bissau, **STP** on intercontinental flights, offers an extraordinary benefit on flights to and from Africa. Passengers benefit from an extraordinary savings for their wallets, being able to carry two (2) hold bags with **30 kg of luggage**, in addition to a piece with **05 kg in the cabin** (total 65 kg), very relevant from Europe.

The objective of **STP AIRWAYS** with resumption of direct links between the two countries of the **Community of Portuguese Speaking Countries (CPLP)**, paralyzed by the pandemic of **COVID-19**, aims to support the **Government of São Tomé Príncipe**, also a **shareholder and with the Presidency of the Council of the Administration** of the country's national flag company, in the actions of phasing out the São Toméan population and resuming economic activities. The "Postcard Paradisiac Archipelago of the Gulf of Guinea" was mentioned earlier this year, by the headlines of the world press and bloggers of great journeys, as "**a must-see destination in 2020**" with the resumption of direct connections to Portugal, in addition to the resumption of economic and social activities, the country expects, in the segment of sustainable tourism, the return of visitors, which are essential to attract foreign exchange. **STP** flights, in addition to getting medical and hospital supplies to the country more quickly, resume imports by air. The benefits extend to the demand for tourism from **São Tomé and the island of Príncipe**, which accelerated the consumption, sale of handicrafts, the dissemination of the production of natural cocoa from the African islands of Ecuador, the aromatic grains and lots of coffee from the fields, the "Best Chocolates in the World" produced according to

artisanal methods, exported to gourmet stores in large cities, which had been provoking years of excellence in tourist recipes and the development of the hotel industry.

STP AIRWAYS warns its customers that until the discovery of a vaccine for the **new Coronavirus**, there are new ways to travel safely, rules that airlines have been forced to adopt. Passengers on **STP** flights from the age of four (**4**) are required to present a **COVID-19** test carried out **72 hours** before departure and the use of a surgical mask in the terminal and during the flight, and must have a stock that allows them to change after four (**4**) hours. Upon arrival in São Tomé, they are subject to thermal screening. The **state of São Tomé and Príncipe**, with the support of the **World Health Organization (WHO)**, is being a notable example in border controls and in combating the pandemic.
